Project

Food Munch

[project1_link](#)

Technologies used : HTML, CSS, Bootstrap

A fully responsive website that offers a comprehensive list of food items and detailed information about each item.

- Designed to provide the best user experience with HTML structure elements and Bootstrap components.
- Implemented product videos to give customers a clear view of the food items.

Todos Application

[project2_link](#)

Technologies used : HTML, CSS, JS, Bootstrap

A robust task tracking system with CRUD capabilities, crafted to simplify task management.

- Designed with HTML, CSS and Bootstrap to ensure a user-friendly interface for managing tasks.

- Dynamic UI updates through JavaScript event listeners and DOM operations for seamless CRUD operations.
- Secure task persistence through local storage methods, ensuring that tasks are never lost.

Tourism Website

[project3_link](#)

Technologies used : HTML, CSS, Bootstrap

Built a captivating online resource where users can access multimedia content and insightful details about popular travel spots.

- Constructed a mobile-adaptive layout using a combination of HTML elements and CSS3 properties like background, flex, and CSS box model attributes.
- Integrated destination-specific image carousels and immersive virtual tour videos with Bootstrap components.

Certificates

Cloud Computing Technology

In this course we have trained on cloud computing and learned insights of cloud computing and we have done a project
